

# TASMANIAN PEPPERMINT

(*Mentha piperita*)

DATA DETAILS	PRODUCT INFORMATION
<p>Peppermint was one of the first essential oils produced in Tasmania in the late 1970s, using the prized Black Mitcham cultivar, renowned for its rich, complex flavour and aroma. Our production of Tasmanian Peppermint oil today is still from this heritage cultivar.</p> <p>With ideal growing conditions arising from Tasmania’s latitude - warm summer days, ample sunshine and cool nights - the original genetics of the cultivar have been preserved but also developed more complexity in aroma and flavour. Tasmanian Peppermint oil is now considered to be among the world’s finest, offering a special alternative for the perfumer’s and flavourist’s palette.</p> <p>Uplifting, cleansing and with unique warming and cooling properties, our Tasmanian Peppermint oil adds freshness and zing to a multitude of products.</p> <div></div>	<p><b>CAS NUMBER:</b> 8006-90-4</p> <p><b>FEMA NUMBER:</b> 2848</p> <p><b>BOTANICAL NAME:</b> <i>Mentha piperita</i></p> <p><b>DESCRIPTION:</b> Based on the prized Black Mitcham cultivar, Tasmanian Peppermint is a premium, rich, crisp and complex 100% natural essential oil true to its renowned heritage.</p> <p><b>AROMA:</b> Complex, fresh and richly penetrating peppermint aroma and taste.</p> <p><b>EXTRACTION:</b> Steam distilled from the leaves and stems of the plant <i>Mentha piperita</i> (Fam. <i>Lamiaceae</i>).</p> <p><b>APPLICATIONS:</b> Flavour, aromatherapy, personal care, nutritional, oral care, complimentary medicine.</p> <p><b>VARIANTS:</b> Tasmanian Peppermint Oil</p> <div></div>
